# The Economist

An index of tangible alternative asset classes compiled by Knight Frank, a consultancy, shows that returns in rare coins over 10 years to the end of 2016 were **195%**

Easily beating:

- art (139%)
- stamps (133%)

Coins are more portable than paintings or furniture and boost a higher value-to-volume ratio. Stamps may be lighter, but, come doomsday, cannot be melted down.
